

Bio Shield antimicrobial cover for iPhone 11 Pro

SKU: TEABCOVIP5819F

Soft, transparent cover that reduces the formation and spread of microbes on surfaces, designed for iPhone 11 Pro

PROTECTION FOR YOU AND YOUR SMARTPHONE

The **Bio Shield antimicrobial cover** offers double protection. Firstly, it protects your **iPhone 11 Pro** from bumps and scratches, and secondly, it significantly reduces the presence of bacteria and microbes on its surface

CERTIFIED HYGIENE

This soft, transparent case stands out thanks to its innovative spirit. The **Biomaster additive**, incorporated into the cover during manufacture, is able to proactively reduce, prevent and inhibit up to **99.9% of the growth of bacteria** on the treated surface.

This technology leverages the use of **silver ions** and is **certified** to ensure an excellent degree of hygiene for both humans and the environment. The additive is not simply applied to the surface but forms an integral part of the cover material; the guaranteed protection is total, 24 hours a day, 7 days a week. Moreover, Biomaster has been tested to comply with ISO 22196.

MAXIMUM PRACTICALITY

The **light, thin** cover does not detract from the design of your smartphone. Take photos thanks to the dedicated opening that fits perfectly around the edges of the camera; it is **very easy to put on and take off** – in a few seconds you can clad your device with protection that is as practical as it is innovative.

FEATURES:

- Antimicrobial cover with Biomaster additive
- Reduction of bacteria by up to 99.9%
- 24/7 protection
- Soft and transparent
- Resistant to small impacts and scratches
